

Sinclair  
Broadcasting has  
proven track record  
of bias and failing  
to meet the public  
service requirements  
for licensing by the  
FCC.

The corporate take  
over of the free  
public airwaves  
constitutes a  
government subsidy  
to the large  
corporations  
unavailable to the  
average citizen. The  
FCC has a  
responsibility to  
make sure the  
public airwaves are  
not simply the  
stomping grounds for  
corporations with  
the economic and  
political clout to  
dominate at the  
detriment to the  
public interest.

Please perform your  
duties as prescribed  
by law and make sure  
a fair  
representation of  
both sides of the  
political spectrum  
are presented by  
Sinclair  
Broadcasting.
